Education	Specialization	Institute	Year	CPI
B.Tech	Computer Engineering	VIT Pune	2024	8.47

TECHNICAL SKILLS

- **Languages:** Java, C++, Python, SQL, TypeScript, C
- **Technologies & Tools:** Angular, ASP.NET Core, Git, Postman, Chart.js, SQL Server, HTML/CSS, Android Studio

WORK EXPERIENCE

- **Technical Consultant | FinIQ Consulting, Pune** (Jul'24 – Present)
 - Designed and developed interactive **setup/configuration pages** in **Angular** for the FX Cash Deal Entry system, **migrating legacy .NET forms** and enabling full **CRUD operations** for deal-related master data, resulting in **~30% faster load times** and improved **workflow efficiency**.
 - Built end-to-end functionality for **Limit Order**, supporting advanced order types (**Limit (price-targeted execution), Stop Loss(risk management), If Done (conditional follow-up order), OCO (One Cancels the Other), If Done OCO (linked OCO executed after a trigger)**) with **manual and auto execution**, enabling traders to **respond to market changes faster**.
 - Implemented complex post-trade actions such as Rollover, Partial Early Take-up, Closeout, Deal Split, Cancel, and Rebook, embedding domain-specific FX logic for accurate trade life cycle management.
 - Created a detailed **MIS dashboard** for the FX Derivatives desk using **Angular and ASP.NET**, improving visibility into **~ 10K+ monthly trade data points** including **RFQs, order count, volume, and execution metrics**.
 - Created a dynamic, filterable **PnL Tree Page** in Angular to visualize **Profit/Loss, Volume, Average Spread, Order count** and other configurable data, enabling detailed analytics per dealer, currency pair, and business unit, **reducing analysis time**.
 - Delivered full-stack **Angular + ASP.NET Core** solutions for **FX-focused FinTech systems**, aligned with trade workflows and stakeholder needs.
- **Engineering Intern | FinIQ Consulting, Pune** (Jan'24 – May'24)
 - Gained hands-on experience in Angular and the FX Derivatives deal entry flow, understanding core trading workflows and system architecture.
 - Developed an interactive MIS dashboard UI for the Structured Equities desk using Chart.js, Angular, and ASP.NET, visualizing key performance and trade metrics.
 - Built view-only pages to fetch and display post-trade and deal entry data, supporting document generation and reporting processes.

B.TECH PROJECT

- **Intelligent Housing Recommendation System** (B.Tech Project | Guide: Prof. Ranjeetsingh Suryawanshi) (Jul'23-Dec'23)
 - a personalized housing recommendation system for immigrants using **K-Means clustering and NLP-based sentiment analysis** of Google reviews.
 - **Scraped and normalized** accommodation and amenity data from **Google Maps and NoBroker**, creating a unified dataset for accurate analysis.
 - Engineered feature vectors combining apartment attributes and nearby amenities to enable customized filtering and recommendations.
 - Developed a multi-layered system with modules for data preprocessing, clustering, **NLP-based review sentiment scoring**, and interactive map-based visualization using **Folium**.
 - Enabled **location-aware housing insights** by ranking listings based on proximity to preferred food outlets, budget, and positive review sentiments, enhancing user experience and aiding strategic decisions for businesses.

PUBLICATION

- **Komalesh Patil**, Prof. Mukund Kulkarni , Chetan Patil,Tanish Modase,Tushar Muley,Aditya Pachore, "Car Parking Slot Detection using Convolutional Neural Networks." *International Journal of Scientific Research in Engineering and Management (IJSREM)* Volume 06, Issue 12 December 2022

POSITION OF RESPONSIBILITY

- **Coordinator | Microsoft Learning Student Club (MLSC), VIT Pune** (Jun'22 – May'23)
 - **Organized 10+ technical events and hackathons** as part of a 30+ member team, contributing to a **5x growth** of the MLSC community (from 200 to 1000+ members) through effective **mentorship coordination and outreach**.
- **Domain Secretary | EPEC, VIT Pune** (Jul'22 – May'23)
 - **Led a team of 10 volunteers and 8 coordinators** to successfully execute multiple student engagement events, enhancing peer learning through structured **technical content delivery, team leadership**, and on-ground execution.
